

## **C. Appendix C – HUD-CHAS Data**

The Comprehensive Housing Affordability Strategy (CHAS) data demonstrates the extent of housing problems and housing needs for 30, 50, and 80 percent of median income. In addition, it shows the prevalence of housing problems among different types of households, including elderly, disabled, and minority, as well as owner- and renter-occupied households. The data includes the number of households in a jurisdiction or geographic area that are cost overburden or have housing problems.

Attached are the HUD-CHAS Data tables for the City of Durham.
